“Taylor is standing because she believes in the student movement, not for any personal gain. She is the epitome of the calibre of people I want representing me on NUS NEC!” - Dan Wrigley—FE Zone Committee

ON YOUR CAMPUS FOR YOU!

WORKING WITHIN YOUR COMMUNITY

To be a support for all FE Colleges to network within their local communities . This will help promote the good work Unions do and can act as another form of support where colleges fail.

CAMPAIGN SUPPORT

Unions are needing to campaign more to be heard, not just on a national basis but within their communities and within their colleges. Through experience I know that support may not come from within your institution and I want to push for this. Pushing for more information on how to organise your own is needed as well as personal support.

FUNDING WITHIN YOUR COLLEGE

To support officers in lobbying their college and gaining the financial support their students need and well as they financial support Unions need. EMA may be buried but how do colleges aim to support its students?

SAVE OUR SABBS

Colleges are all facing financial cuts and Unions seem an easy target. We need to fight for your jobs and prove that a sabbatical officer is more than beneficial for students.
