

We all know how important the student movement is, the challenge we face over the next few years is unprecedented – we need to maintain a national presence in the face of some of the largest changes to the education sector in NUS history.

But it's not just at a national level where NUS can make a difference, over the last year I've seen how effective NUS can be at making an impact on the lives of individual students, supporting campaigns in our classrooms and across our campuses is what NUS does best.

We all come from individual unions, with our own unique set of challenges and campaigns, by supporting these NUS can help unions develop and become stronger, giving individual students a real voice and ultimately leading to a stronger student movement.

This means that when it comes to campaigning nationally on subjects that affect all students we can stand firm and united.

So please help me help you and vote Cameron Giles No. 1 for NEC, because this Cameron won't disappoint.

**I'm not just about FE!  
Earlier in the year I spoke on sky news about tuition fees and the changing face of HE.**

**Welfare is really important to me, supporting students in the fight against higher transport, living and course costs is one of my main priorities**

**Students can, and do, lead the way with charity and society work, if elected I'll help build links between us and those we support.**

I'm always willing to talk and always will be!**

# VOTE CAMERON GILES #1 FOR NEC

'Help Me Help You'

**Politically INDEPENDENT**

I'm open and honest about my politics, and the truth is... I don't agree with any one political party. Whilst I'll always listen to what they have to say, rest assured I'll always be thinking of students first!

If elected I will:

- Work hard to develop learner voice throughout the education sector.
- Continue to oppose the unacceptable costs that plague education today.
- Promote the idea of local unions building links and supporting each other — I've seen first hand what a difference this can make.
- Stress the need for support for individual unions with their campaigns.
- Help build an even stronger NUS!
