

JOE VINSON

Block of

15

I know that NUS can be a powerful campaigning force for FE students, but now more than ever we need NEC members who realise that FE faces just as many challenges as HE. I'll be a strong voice for FE students across the country on the NEC - standing up for your unions.

STRENGTHENING OUR UNIONS

Students Unions can only deliver for students with the right resources. For too long the case for investment in FE unions hasn't been well made. If elected I will:

- Work with the VPUD to provide training for SUs on how to make the case for greater investment, sustain and grow their block grants.
- Produce case studies of FE unions around the country to make the case for investment much stronger.

Joe is one of the most passionate and committed officers in FE today. His hard work at CCSU has been inspiring, and that's why I'm voting Joe #1 for Block.

Penny Birch, President at Leeds City College

FE students are constantly under attack by this government and we need to take a stand. Students deserve a fee free FE, and that's exactly what we should be campaigning for. I will:

- Fight against plans to introduce fees and loans for FE courses.
- Organise days of action to protest against the extension of stop and search in FE.
- Lobby the government to bring back a weekly financial support allowance for FE learners.
- Support FE unions in making the case against modular structural changes to A Levels.
- Campaign to secure a post-qualification application system for higher education.
