

MAKE IT COUNT MAKE IT BUTLER

Charlotte Butler #1 for NEC

MAKE IT COUNT!

With the cuts to FE funding it is crucial that voices of FE students are heard. On block I will ensure your ideas count, beyond your union and into the wider movement. I will lobby the NUS VPs to develop a program to mobilise voices from FE and further engage FE Unions to fight for themselves.

MAKE IT FAIR!

It is only fair that in FE we have a say in our education, it is our future and we have a right to direct our education. The learner voice plays a key part in the way students can engage with their unions and with their institutions. On block I will lobby the NUS to get Ofsted to improve the value of learner voice and make sure that it is at the heart of the student experience.

MAKE IT HAPPEN!

I love nothing more (apart for a cuppa) than fighting to make sure students are getting what they need and most importantly what they deserve. I will lobby the NUS to make sure that FE students are informed, mobilised and active by the time of the General Election in 2015. I will campaign for the NUS to make sure that all documentation, events and campaigns are as easily accessible as they can possibly be.

"Charlotte has been an incredibly impressive officer to work with on the NUS welfare zone committee. She has shown the ability to provide leadership on national policy issues whilst delivering fantastic work in her own students' union through 'Time to Change', Green Impact, Accessibility and Student Parents. I have no doubt she would make a great addition to the NEC." Colum McGuire - VP Welfare - NUS
