

Harry Fox #1 for Block of Fifteen!

At age 15, I had been failed by the service, known as education. I got a second chance in FE and got involved in my Students' Union to make sure this didn't happen again, to me or other students around me. I wanted to make sure others weren't treated similarly and had the chance to succeed, benefiting from their learning experience and grow as people.

I want to grow the Green Impact campaign, helping more unions gain accreditation and form stronger links with their institutions. I believe this work is paramount to the student movement, building a better future for the next generation, whilst saving money and resources for our generation!

Now that it has been legislated, we need the fight on more than ever. 119 of the 169 MP's in attendance voted to pass this legislation but it doesn't make it law... YET! (There is 649 MPs). We need to keep the battle going until this has become law. Give a vote to 1.5 million 16 & 17 year olds. Give a vote to students!

Last year I was part of the union that stood before you and made history. Cementing a massive step towards future FE representation at National Conference. Together we passed policy that ensures the date of Conference would be in the Easter Holidays, making our 72% of membership not have to choose representation over education.

"Harry is a prime example of the power education has to change lives. A great campaigner and top all round chap." - Dom Anderson, Derby University, Vice President Academic Affairs

"When I first met Harry, he was really approachable and knowledgeable. He helped me become the officer I am today. His views and opinions are always with the student body in mind and he strives towards a better future for all students. I believe Harry should be elected as he continues to work hard and commits his time to the student movement, helping make positive change for all" - Karina Clarke, Blackpool, President.

"Harry has consistently pushed FE further in his community, and nationally. His work on transport and citizenship solidify Harry as one of the strongest up and coming NUS officers." - Elliot Page, City College Norwich, Deputy President.
