

I'm still glued to the rocks that I've got...

I'M STILL JENI FOR THE BLOCK

Hello, my name is Jeni and I'm running for block of 15 (yay!). I believe that education shouldn't be about HE or FE, vocational or academic, it should be about the student. I don't believe in apathy. We need an NUS that enables every student, that's my goal.

I love Musical Theatre, Jazz hands and singing in the shower, but there is nothing I love more than campaigning with and on behalf of students, as well as making sure we, the students, are at the core of the education system. I am very passionate and would love to be on the Block of 15, to continue pushing nationally for not what students' only want, but deserve.

Not only would I be the second apprentice on Block of 15, I am the only Committee member on the FE zone committee to have studied a vocational course. I am the underrepresented student in NUS, and this is going to change. I want to make sure no matter what you study, what you believe in or how you define yourself effects how much you are represented in NUS. You have a voice, and it needs to be heard.

I will...

Be your voice on the NEC, supporting your ideas and campaigns, making sure you get all the support you need. We should be making wins locally and nationally and NUS should be supporting you with this!

Build strong Union Development. I am both passionate about it and believe it is a necessity. It is something we need to push for nationally. I want students from all backgrounds to feel empowered.

Push for liberation to be at the heart of FE and NUS. I want NUS to be inclusive of all its membership, embracing and creating new ideas.

'Jeni is one of the most engaged officers that I have met. Her grasp of student issues encompassing both HE and FE mean she would be an asset to the national movement.' - Joe Levell - VP Finance UUEAS

'Jeni is an outstanding officer who has a true passion for the student movement. It's always a pleasure to work alongside Jeni as she always focuses on the task at hand and most importantly makes sure that we are winning for students' - Zak Thompson - FE Zone

Experience

Students' Union Deputy President 2011-2012

Further Education Zone Committee (NEC Place) 2012-2013

Students' Union President 2012-2013

Student Governor 2012-2013

Achievements

Winning the Living Wage for all staff members at City College Norwich

Championing the AoC 'No Free Lunch' campaign, winning support from MPs and local councils.

Creating the UK's first apprentice regional representative

Co-ordinating a White Paper on the Future of Education, read by Matthew Hancock MP, Skills Minister, and 31 colleges in the region.
