Unite and fight the Tories and attacks on our education

The Tories have unleashed the biggest attack on students and ordinary people for generations. We need to fight them head on.

I stand for an active, campaigning NUS which is part of a broader movement of resistance – we cannot win the battles ahead if students are isolated and go it alone – we must be part of a coalition of the 99% fighting back. If the government, police or university authorities crackdown on our right to resist, NUS needs to be on the front line defending student protesters.

Elect me and I will:

- Organise and build a first term national demo for free education, against all cuts and the privatisation of student loans
- Oppose the devastating cuts to FE and build the campaign to bring back EMA
- Fight the crisis of living standards: taking on rip-off landlords demand affordable housing job creation and a living wage for all
- Support the People's Assembly Against Austerity, the trade unions and everyone fighting back to stop the government's austerity assault

Stand up to racism, fascism and bigotry

NUS must make opposing racism and fascism a key priority in the run-up to the European and General elections.

I will champion a student movement that has an agenda of hope – challenging the Tories' agenda of fear and despair which seeks to use immigration bashing and racist scapegoating to divide our diverse and multicultural society.

Elect me and I will:

- Campaign against racism, Islamophobia and fascism - working with Unite Against Fascism to defeat the BNP and EDL at the ballot box and in our communities
- Challenge the bigotry of UKIP
- Oppose attacks on international students – from visa restrictions, to deportations and NHS charges

Global peace and justice - no to war and climate chaos

The student movement has a proud tradition of standing up for international peace and justice. Whilst the Tories branded Nelson Mandela a terrorist in the 1980s, NUS was campaigning for him to be freed and for apartheid in South Africa to be ended.

Let's keep on standing up for justice. The student movement needs to be at the heart of the international movement to stop climate change and for peace worldwide.

I stand for:

- Urgent action to stop climate change – cut carbon now – people and planet before profit!
- Freedom for Palestine: end the occupation, end the siege on Gaza now!
- Peace and justice in the Middle East: end the wars and Western military intervention
- Power to the people: support the movements for social justice and free education in Latin America
