Supporting Independent Activists

Individuals should *always* be supported when they've come up with ideas. If it matters to them to spend their own time, around their studies, then we should help point them in the right direction, and continually support them.

I will be a reliable, friendly point of contact in the NUS for any student wanting to share their passions or concerns.

Supporting Unions of All Sizes

Regardless of your student population; part-time, full-time, mature, post-grad, big, small, FE, HE, Arts, Humanities, Sciences, Medical; every union is entitled to support from ***your*** NUS.

I will be a strong voice for smaller, specialist, out of the way and forgotten unions.
